SUMMARY

Frontend engineer building responsive, full-stack web applications with React, TypeScript, and Next.js. Experience implementing real-time streaming (SSE), authenticated user flows, rate-limited APIs, relational data modeling, and automated testing with Vitest. Strong emphasis on component architecture, state management, and building polished interfaces.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Next.js, Tailwind CSS, shadcn/ui, React Router, Vite

Backend: Node.js, Express.js, REST APIs, Server-Sent Events (SSE), PostgreSQL, Supabase

Testing: Vitest, React Testing Library

Auth & Infrastructure: Clerk, Upstash, Vercel, Railway, Netlify

PROJECTS

Gorilla AI — AI Learning Platform | React · TypeScript · Next.js · Supabase · Clerk · OpenRouter

Case Study: <https://manuelaguirre.dev/projects/gorilla-ai>

- Implemented real-time AI response streaming via Server-Sent Events (SSE), with centralized state management for conversations and streaming message updates.
- Built authenticated conversation persistence with Supabase and Clerk, with API rate limiting to control usage and protect AI endpoints.

Recipe App — Full-Stack Recipe Discovery | React · TypeScript · Node.js · Express · Vitest

Case Study: <https://manuelaguirre.dev/projects/recipe-study>

- Built a React/TypeScript frontend with an Express API layer for recipe search, data transformation, and protected third-party API access.
- Added SQLite caching and automated tests with Vitest and React Testing Library covering serving-size behavior, ingredient scaling, and edge cases.

Dragon Ball Z — Interactive Battle Simulator | React · TypeScript · Radix UI · Framer Motion

Case Study: <https://manuelaguirre.dev/projects/dragon-ballz>

- Built an interactive battle simulator with reducer-driven state for character selection, battle phases, and randomized outcomes.
- Developed BigInt parsing and logarithmic scaling utilities to visualize power levels across extreme numerical ranges.

EDUCATION

A.A.S. in Web Development

Des Moines Area Community College (DMACC) Graduated 2025
